

MAAJTEK

Empowering innovation in automation

WHO WE ARE

We are an innovation-driven automation and robotics firm crafting tailored solutions for our clients. At MaajTek, we are thrilled to champion automation and embrace the limitless potential of robotics & automation. Our dynamic and youthful team delivers bespoke visionary engineering solutions, offers competitive edge, and propel growth of our clients spanning diverse industries.

We are fueled by the promise of what lies ahead. Automation and innovation holds immense potential for the greater good - solutions that shift the burden of monotonous and tedious tasks to streamlined brilliance of automation. Our vision, naturally is, propelling progress and building a future that uplifts us all.

9+ Projects

14+ Affiliates

India, Singapore, ME

4+ Industries served

OUR CAPABILITIES

- Industrial Automation
- Automated Guided Vehicles
- Engineering Modeling
- Engineering Analysis
- 3D Printing
- Robotic Arm

INDUSTRIES WE SERVE

Manufacturing

Agriculture

Food

Oil & Gas

OUR UNIQUE VALUE

HIGH EXPERTISE

INNOVATION SOLUTIONS

ONGOING SUPPORT

NETWORK & PARTNERSHIPS

OUR PROJECTS

Autonomous Bell Pepper Harvesting

Designed and implemented an autonomous buggy with a robotic arm for harvesting bell peppers in a greenhouse facility.

Streamlined harvesting process, reduced labor costs, optimized yield for the company.

Autonomous Surveillance Solution

Designed and implemented an autonomous buggy with latest sensor technology for facility patrolling, and integrated with existing systems.

Successful implementation of the solution, reduction in manual labour cost, and improved security and safety in the facility.
